

Azedine Ouhadou

Fullstack Developer

azedine.ouhadou1@gmail.com — +212 678 439 157 — [Portfolio](#) — [GitHub](#) — [LinkedIn](#)

Summary

Full-stack Developer with 3+ years of experience in building and maintaining scalable web applications. Specialize in the modern React/Next.js, Node.js, TypeScript ecosystem.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Node.js, C/C++, HTML5, CSS3.

Frameworks: React.js, Next.js, React Native, TanStack Query, Zustand, Nest.js, Express.js, TypeORM.

Styling: Tailwind CSS, Styled Components, Material-UI, Shadcn, Responsive Design.

Tools: Git, GitHub, Figma, Docker, Jest, CLI, REST APIs.

Professional Experience

Front-End Developer — Dahbi Group (freelance)

Apr 2025 – Present

- Engineered a comprehensive management platform from the ground up, automating B2B workflows and B2C fitness club systems using **Next.js** and **TypeScript**, delivering scalable and type-safe architecture.
- Developed an enterprise-grade reusable UI component library using **ShadCN**, **Tailwind CSS**, and **TanStack Query**, accelerating team feature development.
- Maintain a cross-platform mobile application using **React Native**, expanding platform accessibility across devices.

Full-Stack Developer — Flow Digital

Aug 2024 – Mar 2025

- Developed and maintained a full-stack ERP system for the construction industry using **React.js**, **Next.js**, **Nest.js**, and **PostgreSQL**, optimizing business operations and workflow efficiency.
- Created the After-Sales Service (SAV) module, enhancing customer support processes and boosting client satisfaction.
- Ensured high-quality code delivery through Jest unit testing, achieving **85% code coverage**, and participated in Agile development through sprint planning and code reviews.

Front-End Developer — Billo (Internship)

Feb 2024 – Aug 2024

- Contributed to responsive web applications for digital mail and payments management using AI, helping achieve over **52K monthly visits**.
- Created a robust payments module, streamlining financial processes and enhancing transaction accuracy.
- Collaborated with designers and marketers to align website updates with brand guidelines and marketing strategies using **React.js**, **Next.js**, **TanStack Query**, and **Styled Components**.

Full-Stack Developer — While Loop

Nov 2021 – Feb 2023

- Developed and maintained full-stack web applications using a **React.js** and **Tailwind CSS** frontend integrated with a **Node.js** and **Express** backend.
- Built modular, reusable UI components and implemented RESTful API endpoints to support dynamic, data-driven features.
- Optimized application performance, improved API response efficiency, and maintained clean, scalable codebases on both the client and server.

Key Projects

Price Pulse — Full-Stack — [Live Demo](#)

Built a SaaS platform for localized website discounts, implementing user authentication, payment processing (Stripe), and a full-stack architecture with **Next.js**, **Drizzle ORM**, and **PostgreSQL**.

Education

Software Engineering Degree — 1337 Coding School (42 Network) — 2021 - 2024

Bachelor of Economic and Management — University Sultan Moulay Slimane — 2017 - 2020
